SUMMARY

I am a Computer Science student at Alexandru Ioan Cuza University of Iași and a software engineer focused on Artificial Intelligence and modern web architectures. My passion for technology stems from a deep, intrinsic curiosity: I am never satisfied with just the surface layer, but driven to understand what happens under the hood — system logic, architecture, and high-level performance.

EXPERIENCE

Artificial Intelligence Intern Aug 2026 – present
EconFaire Immersive Design · Suceava, Romania

- Picked up AI projects on my own initiative, including a role-based avatar assistant, and pushed them forward.
- Learned the stack quickly, asked precise questions, and applied feedback immediately.

Junior Software Engineer Jul 2026 – Jul 2026
EconFaire Immersive Design · Suceava, Romania

Scrum Master Nov 2025 – Jan 2026
Globant · Iași, Romania

- Facilitated Agile ceremonies and Scrum frameworks for a delivery team.
- Focused on team synergy and removing blockers, and on managing a project from concept to delivery.

Junior Developer Aug 2025 – Sep 2025
EconFaire Immersive Design · Suceava, Romania

- Built complex n8n workflows to automate repetitive tasks and integrate apps and APIs.
- Refined logical thinking and attention to detail by structuring multi-step automations.

PROJECTS

Hours Done

A local, no-backend planner for a 9-hour workday.

TypeScript · IndexedDB · Vite · Vitest

Voice ordering agent Done

A voice agent that takes phone orders for a pizzeria.

Python · FastAPI · SQLite · STT/LLM/TTS

Trupa 9 — band site Done

A website for a live-music band that plays events.

Python · JavaScript · HTML · CSS

media-lab In progress

A local, verified video/photo pipeline for short social clips.

Python · FFmpeg · Kinocut · CLI

Tur virtual 3D — Școala Artelor Suceava <i>A scroll-driven 3D virtual tour of a school building.</i> TypeScript · Three.js · Lenis · Vite	In progress
Second brain <i>A personal knowledge vault with scripting around it.</i> JavaScript · Obsidian · PowerShell · Shell	In progress
Administrative-expertise platform <i>An administrative web application on the same modular-monolith core.</i> Python · FastAPI · React · TypeScript	Done
People & Culture platform <i>An internal HR web application built as a modular monolith.</i> Python · FastAPI · SQLAlchemy · React · TypeScript · Alembic	In progress
Workflow → Python port <i>A faithful Python port of a no-code automation workflow, with AI document analysis.</i> Python · AI / LLM · PDF processing · SQLite	In progress

SKILLS

CSS	HTML	JavaScript	Python	TypeScript	C	Java	Astro	FastAPI	React
Tailwind CSS	Three.js	Git	n8n	SQLite	Vite	Docker	Agile	API Development	
Object-Oriented Programming	Project Management	Prompt Engineering	Scrum	Automation					
Applied AI	Voice Pipelines (STT/LLM/TTS)	English							

EDUCATION

Bachelor's degree — Computer Science <i>Universitatea „Alexandru Ioan Cuza” din Iași</i> Coursework across programming, software construction, and object-oriented languages.	2024 – 2027
